

Kinship Pointe Northridge Home Health Agency

Kinship Pointe Northridge provides private duty services to our Independent Living residents with specialized preferences and needs. Our professional and loving staff will help you manage all day-to-day activities in your life. This gives you the benefit of peace of mind. Our services are helpful, customized for each person, cost-efficient and private pay. This can be a long or short term solution. Most of our services are available seven days a week and can be implemented within 24 hours of initial contact.

Foster Active Living Communities have grown from a rich tradition in senior living with a heartfelt passion for our elders. Our communities that we manage, reflect the values we have held for over 50 years – “that caring for our elders is a privilege and the right thing to do”. Designed to feel like home, our communities offer a gracious lifestyle where our elders can pursue their passions, remain active and be confident that their health, happiness and safety are our top priority. We feel a kinship with our elders and foster that spirit of kinship in all our communities. This provides a place where friends and family gather to enjoy life. A place where our residents needs are anticipated and answered because we know each and every one of them.
